

NOTICE OF INTENT TO STORE BIODIESEL

Owner's Name: _____

Owner's Address: _____

City/County: _____

Owner's Phone: _____ Biodiesel Blend: **B** _____

Facility Number: _____ Tank ID Number(s): _____

This Notice of Intent certifies the following:

1. The UST system(s) meet(s) the construction requirements contained in California Health and Safety Code (HSC), Section 25291, subdivision (a), paragraphs (1) to (6), inclusive and subdivisions (b) to (i), inclusive, Section 25290.1, or Section 25290.2.
2. The UST system(s) and components are approved for the storage of petroleum diesel pursuant to T23CCR Section 2631, subdivision (b).
3. The UST system(s) and the owner or operator is in compliance with all other applicable requirements contained in HSC Chapter 6.7 and T23CCR.
4. The UST system and components are compatible with the biodiesel blend to be stored and are supported by documentation from the underground storage tank manufacturer, a nationally-recognized biodiesel association, or a nationally-recognized research organization with applicable expertise. (Testament of Compatibility to be attached).
5. The release detection equipment manufacturer has determined the equipment functions with the biodiesel blend to be stored. (Testament of Leak Detection Functionality to be attached).
6. An updated "Operating Permit Application-Tank Information" form has been completed. (Form to be attached).

As required by Title 23, California Code of Regulations, Section 2362.1 I hereby agree to utilize release detection methods or equipment pursuant to the variance established in 23 CCR §2631.2(f). I also agree to store biodiesel meeting ASTM D6751 in no more than a 20 percent blend by volume in the UST pursuant to the variance established in 23 CCR §2631.2(e).
